Lenght 24.44m/80ft 2in

Capacity 8

Total Power 1800

Engine 2 x MAN V12

Fuel

Engine Hours

Class A

DESCRIPTION:

It is rare that we come across a pre - owned Sunseeker in this condition, but this yacht is truly stunning in every way.

We sold this well specified yacht new to an existing Sunseeker client who chose the interior wood and furnishings with great taste, creating a beautiful interior with many upgraded fabrics and carpet (which in fact is still in pristine condition).

Entire teak decking replaced in 2019 (although it was not strictly necessary at that time), and now this 12mm teak presents very well throughout with no signs of abnormal wear. The teak on this yacht is now to a higher specification than when she left the factory.

Spacious and well protected aft cockpit with ample seating and teak dining table leads into cosy saloon with cream leather sofas, custom table lamps and high grade wenge flooring. Further forward to 8 place dining table and chairs to starboard and enclosed fully equipped galley to portside. Forward again to comprehensively equipped lower helm station to starboard with side deck door and seating/nav area to port.

Down to 4 ensuite guest cabins. The roomy VIP lies fully forward and has ensuite bathroom, walk in wardrobe and good storage.

Moving aft to the 2 x twin guest cabins both with ensuite bathrooms, and generous storage. One of these twins has the sliding bed feature which converts to another double bed, when the occasion suits.

Fully aft to the full beam master stateroom with large bathroom and walk in wardrobe, also with large hull windows each side allowing plenty of natural light.

Transom area leads to 3 berth crew cabin with small mess area and bathroom. Access to the engine room from the crew cabin (and from the aft cockpit).

Spacious deck areas and secure side decks lead up to fully equipped and well protected flybridge. This sociable area contains the upper helm station, large U shaped dining area with folding teak table, well equipped wetbar and sunbathing facilities.

Full size GRP retractable hardtop.
