DESCRIPTION:

DP11 Crismar

Main works carried out:

- 1998/2000: Replacement of engines, gearboxes, shafts and propellers (4 blades); installation of hydraulic gangway; replacement of the platform with a 90 cm one; replacement of the flybridge windows

- 2015: Replacement of teak, rubbing strake, handrails, cleats, cable glands and updated the windlass by adding a control panel; replacement of windows, access ladder to the fly and porthole access to fly; created a small sofa and storage lockers in the cockpit; removed bunk beds and added a shower cubicle and wardrobe; removed gas system and stove, added electric hob and refrigerator with separate freezer, redone L-shaped sofa; updated electrical system and replaced generator with 3.5 kW Mase with dedicated battery; cleaned fuel tanks, added visual level gauge and connecting pipes, added Racor prefilters

- 2023: Electrical system upgrade (battery disconnect switch redistribution, battery switch and battery charger for generator added); interior upholstery in the owner's cabin redone; new sunbathing cushions, new sunbathing cover, new shade awnings; teak repainted and sanded.

Annual engine service and antifouling applied.
