Lenght	2,68 m
Capacity	3
Total Power	10 HP
Engine	Honda BF 10 D
Fuel	
Engine Hours	
Class	C

DESCRIPTION:

Suzumar Tender

Engine: Honda BF 10 D with electric start, 45 kg

The snow-white fiberglass hull has a moderate V-shaped keel in the bow, gradually flattening out towards the stern. The construction of this tiny boat, classified as coastal waters according to CE standard C, is incredibly simple, as, typical for a RIB, there are no loose floorboards that need to be fitted together.

Very high payload capacity considering the boat's small size.

The air chambers are in excellent condition, and all seams are top-notch.

Includes original cover.

FINANCIAL NOTES:
